EDUCATION

TANJUNGPURA UNIVERSITY *Pontianak, Indonesia*
Bachelor of Science in Geophysic *Jul 2025*

- Cumulative GPA: 3,28 / 4,0.
- Thesis: Comparative Analysis of Weibull and Rayleigh Distributions for Identifying Dominant Wind Speeds in Ketapang Regency.

STATE VOCATIONAL HIGH SCHOOL 4 *Pontianak, Indonesia*
Geomatics Engineering *May 2018*

- Relevant Coursework: Geodetic Principles, Coordinate Systems, Geospatial Data Management, and Cadastral Surveying.

EXPERIENCE

LBH KALBAR *Ketapang, Indonesia*
Junior GIS Surveyor *Jan 2026 – Jun 2026*

- Conducted topographic surveys and geospatial mapping across 3 active mining blocks and 2 bauxite processing facilities covering 500+ hectares in Air Upas, Ketapang.
- Monitored surface water quality across 8 major rivers and conducted soil surveys involving 4 shallow drilling operations and 8 core samples for environmental baseline assessments.
- Managed 100+ geospatial and field datasets for spatial analysis, environmental evaluations, and weekly technical reports.

AMERTA BUMI PRAKASA LP *Bengkayang and Sambas, Indonesia*
Junior Geophysicist *Jul 2025 – Dec 2025*

- Executed 18 geoelectric survey lines across 250+ hectares in Monterado and Paloh for subsurface exploration and mining-area mapping.
- Conducted 18 exploratory drilling operations up to 10 m deep to validate 2D subsurface resistivity models.
- Processed and interpreted 15+ geoelectric datasets using RES2DINV to generate 2D subsurface profiles.
- Prepared 2 technical reports integrating field data and drilling results to support engineering evaluations and project decisions.

PT NUSANTARA BERDIKARI LOGISTICS *Bekasi, West Java, Indonesia*
Administration Intern *Jan 2025 – May 2025*

- Managed shipment documentation and verified distribution data for accuracy and completeness.
- Tracked real-time shipment status using fleet management and vehicle tracking systems.
- Supported logistics fleet operations and routine maintenance monitoring to ensure smooth distribution.

TANJUNGPURA UNIVERSITY *Pontianak, Indonesia*
Undergraduate Fieldwork Teaching Assistant – Geophysics *May – June 2023, May – June 2024*

- Coordinated equipment deployment and facilitated field data acquisition for geoelectric (2023) and hydrological (2024) mapping exercises.
- Guided 20+ students through data inversion, processing using Res2DInv, and data quality control (QC).
- Instructed students on water resource measurement techniques and mentored final report drafting.

SKILLS

Geospatial and Surveying: Land and Topographic Surveying, GPS, GNSS, Total Station, Auto Level, GIS, Spatial Analysis, Remote Sensing, QGIS, Global Mapper.

Geophysics and Environmental Monitoring: Electrical Resistivity/Induced Polarization Surveying and Processing, RES2DINV, Ocean Data View, Automatic Weather Station, Multiparameter Water Quality Meter, Refractometer

Data Analysis and Software: MS Excel (VLOOKUP, IF, SUM, Pivot Table and Power Query), SQL, Power BI, Python, Data Validation, Technical Report Writing, MS Office, Adobe Photoshop, Canva.

Languages: Indonesian (*Native*), Javanese (*Native*), English (Conversational – TUTEP Score: (*530/677*).

Professional Development & Certifications: Learning Data Analytics: 1 Foundations, Introduction to Career Skills in Data Analytics, Excel Essential Training Microsoft 365.
